

Website Redesign & Development Proposal

For: Gibraltar Technologies

Prepared by: Webverkz

Date: April 21, 2025

1. Executive Summary

This proposal outlines Webverkz's plan to redesign and develop a dynamic, multi-page website for Gibraltar Technologies, transforming its current one-page site into a comprehensive digital platform. The new website will enhance Gibraltar Technologies' online presence, effectively communicate its scale, diverse services, innovation capabilities, and global impact, and improve user experience.

2. Project Objective

The primary objective of this project is to create a modern, user-friendly, and scalable website that:

- Accurately and comprehensively represents Gibraltar Technologies' brand and values.
- Showcases the company's full range of services, solutions, and products.
- Improves search engine visibility and organic traffic.
- Provides a seamless and engaging experience for visitors.
- Facilitates lead generation and client acquisition.
- Positions Gibraltar Technologies as a leader in the IT services industry.

3. Client Needs and Goals

Based on our understanding, Gibraltar Technologies aims to:

- Enhance its digital presence to reflect its growth and global reach.
- Improve the organization and presentation of its services and solutions.
- Increase website traffic and attract potential clients.
- Provide a platform for sharing insights, news, and updates.
- Establish a stronger brand identity online.

4. Proposed Solution

Webverkz proposes the development of a multi-page website with the following key

features:

- **User-Centric Design:** A visually appealing, intuitive, and easy-to-navigate design that aligns with Gibraltar Technologies' brand identity.
- **Responsive and Mobile-Friendly:** The website will be fully responsive, ensuring optimal viewing and functionality across all devices (desktops, laptops, tablets, and smartphones).
- **Content Management System (CMS):** Implementation of a robust and user-friendly CMS (WordPress) to enable easy content updates and management by Gibraltar Technologies.
- **Search Engine Optimization (SEO):** Implementation of on-page SEO best practices to improve website visibility in search engine results.
- **Clear Information Architecture:** A well-defined site structure that allows users to quickly find the information they need.
- **Engaging Content:** Development of compelling and informative content that showcases Gibraltar Technologies' expertise and value proposition.
- **Scalability:** The website will be designed to accommodate future growth and expansion.

5. Proposed Site Structure

The new website will be organized into the following sections:

- **Home:**
 - Brief company introduction
 - High-impact hero banner with clear call-to-actions
 - Snapshot of key services and solutions
 - Featured client testimonials or partner logos
 - Latest news and blog highlights
- **About Us:**
 - Company overview, mission, and vision statements
 - Company history and milestones
 - Leadership profiles and team introduction
 - Information about company values and culture
 - Global presence information (office locations, etc.)
- **Solutions:**
 - Detailed information about Gibraltar Technologies' core solutions:
 - AI Products (Wai Suite)
 - Cybersecurity Solutions
 - Robotic Process Automation (RPA)
 - Cloud Computing Services

- Internet of Things (IoT) Solutions
 - [Add other solutions]
- **Products:**
 - Dedicated pages for each product in the Wai Suite:
 - Wai – Eye
 - Wai – Health
 - Wai – ECM
 - Wai – Predict
 - Wai – Connect
 - Wai – Contact Center
- **Services:**
 - Detailed descriptions of the services offered:
 - IT Consulting
 - Managed Services
 - IT Outsourcing
 - Digital Transformation Services
 - [Add other services]
- **Industries We Serve:**
 - Information about the industries served by Gibraltar Technologies, with specific examples and case studies:
 - Banking, Financial Services, and Insurance (BFSI)
 - Oil and Gas
 - Government
 - Healthcare
 - [Add other industries]
- **R&D and Innovation:**
 - Information about Gibraltar Technologies' research and development activities:
 - Details about R&D labs (AI, Mobility, Robotics, etc.)
 - Information about patents and intellectual property
 - Research publications and updates
- **Careers:**
 - Job openings and application process
 - Information about company culture and employee benefits
 - Employee testimonials
- **Blog / Newsroom:**
 - Articles, news announcements, press releases, and industry insights
- **Contact Us:**
 - Contact form for inquiries

- Map of office locations
- Contact information for global offices
- **Legal:**
 - Privacy Policy
 - Terms of Use

6. Scope of Work

Webverkz will provide the following services:

- **Discovery and Planning:**
 - Conduct detailed client meetings to gather requirements and understand project goals.
 - Perform a comprehensive content audit of the existing website.
 - Develop a detailed sitemap and information architecture.
 - Create wireframes for all key page templates.
 - Conduct keyword research to inform SEO strategy.
- **UI/UX Design:**
 - Develop a visually appealing and user-friendly website design.
 - Create design mockups for all page templates.
 - Ensure the design is consistent with Gibraltar Technologies' brand identity.
 - Optimize the design for usability and accessibility.
- **Website Development:**
 - Develop the website using HTML, CSS, JavaScript, and other relevant technologies.
 - Implement a Content Management System (WordPress).
 - Ensure the website is fully responsive and mobile-friendly.
 - Optimize website performance for speed and efficiency.
 - Implement on-page SEO elements.
 - Integrate necessary plugins and functionalities (e.g., contact forms, newsletter signup).
 - Set up website analytics tracking.
- **Content Creation:**
 - Develop compelling and informative content for the Solutions and Products pages, based on information provided by Gibraltar Technologies. (This line was adjusted)
- **Testing and Quality Assurance:**
 - Conduct thorough testing to ensure website functionality, performance, and compatibility.
 - Perform cross-browser and cross-device testing.

- Identify and resolve any bugs or issues.
- **Training and Support:**
 - Provide training on how to use the CMS to manage website content.
 - Offer post-launch support for a specified period.

7. Project Timeline

The estimated project timeline is 6 weeks from the commencement of the design phase to website deployment. This timeline is dependent on the timely delivery of content from the client and efficient feedback and approval cycles.

- Phase 1: Discovery & Planning (1 week)
- Phase 2: UI/UX Design (2 weeks)
- Phase 3: Development (2 weeks)
- Phase 4: Content Creation (1 week - Concurrently with Development)
- Phase 5: Testing & QA (1 week)
- Phase 6: Training & Deployment (1 week)
 - Total: 6 Weeks
(Timeline was adjusted to reflect 6 weeks)

8. Cost Breakdown

The total estimated cost for this project is INR 30,000.

Service	Cost (INR)
Discovery & Planning	5,000
UI/UX Design	8,000
Development	10,000
Content Creation	3,000
Testing & QA	2,000
Training & Support	2,000
Total Estimated Cost	30,000

9. Payment Terms

- 40% upfront payment upon signing the contract.
- 40% payment upon completion of the development phase.

- 20% final payment upon final approval and website deployment.

10. Project Deliverables

Upon completion of the project, Webverkz will deliver the following:

- Complete website design files and source code.
- Access to the website's CMS with administrative privileges.
- Training documentation for the CMS.
- 30 days of post-launch support.

11. Optional Add-ons

- Ongoing Website Maintenance: (Details and pricing will be provided separately)
- Advanced SEO Strategy: (Details and pricing will be provided separately)
- Integration with CRM / Chatbot / Ticketing Systems: (Details and pricing will be provided separately)

12. Client Responsibilities

To ensure the successful completion of this project, Gibraltar Technologies will be responsible for:

- Providing all necessary website content (text, images, and other media) in a timely manner.
- Providing timely feedback and approvals on design mockups and development progress.
- Designating a primary point of contact for the project.
- Providing access to any necessary accounts or resources.

13. Our Expertise

Webverkz is a [Your Company Description]. We have a proven track record of designing and developing high-quality websites for businesses in the IT services industry. Our team has extensive experience in:

- Website design and development
- Content Management Systems (CMS)
